

Ghulam Abbas

Software Developer

About me

I'm a software developer specializing in the development of applications for both Android and iOS platforms.

In Android development, I'm proficient with Kotlin and Java, leveraging Android Studio to create responsive and efficient applications. On the iOS side, my expertise lies in using Swift Xcode, enabling me to build seamless and engaging user experiences for Apple devices. My approach always involves staying ahead of the curve with the latest updates in both ecosystems, ensuring my applications leverage the newest features and best practices.
